

# TICKS

## How to check your dog

Follow these simple tips:

- 1 Gently move your fingertips through the coat at the level of the skin, feeling for any bumps
- 2 Start at the head and neck (don't forget the mouth and ears). Continue down the front legs to the paws, checking in between and underneath the toes. Search the chest, belly, back, tail and back legs
- 3 Remove the collar and search for ticks that may be hiding underneath it

CHECK FROM HEAD TO TAIL TO TOES

### IMPORTANT AUSTRALIAN TICKS

		
PARALYSIS TICK Unfed	PARALYSIS TICK Partially fed	PARALYSIS TICK Engorged
		
BROWN DOG TICK Unfed	BROWN DOG TICK Engorged	BUSH TICK Unfed

Paralysis ticks can be deadly, so check your dog daily and always keep them protected

Is your dog protected?
