

Guide Dogs is a registered NDIS provider

Guide Dogs.

**Discover our specialised
Vision Services.**

Live the life you want,
regardless of your age
or vision level.

We're by your side, every step of the way

From childhood, through your teenage years and into adulthood, Guide Dogs can work side-by-side with you, tailoring your program as you reach different stages in life, and supporting you to achieve your personal goals.

Early Childhood Services

We all learn to interact with the world from a young age. Through our range of Children's Services, Guide Dogs can provide Early Childhood Intervention programs for children under seven living with low vision or blindness. Through safe play and exploring new environments with confidence, children can learn about themselves, each other, and how to be part of a community.

Services for Children and Teenagers

Whatever milestones your child or teen wants to achieve to feel happy and confident, our Vision Specialists are here to offer training, encouragement and support. Our Children's Services are delivered with a focus on fun, offering your child valuable practical skills while encouraging them to explore their potential, no matter their level of vision. Our training can enhance your child's independence to improve their confidence at home, at school, or in the community, and even as teens transitioning into young adulthood. And, just as kids quickly grow to meet new challenges or embrace new experiences, our programs do the same – introducing different techniques and assistive technology as they become relevant.

Adult Vision Services

As you move into adulthood, our specialist Vision Services can help you maximise your independence, offering you everyday skills and technology to assist with travelling to work, getting out and about in the community and moving around your home safely. Through our Low Vision Services, Occupational Therapy, Orientation and Mobility Services, and Assistive Technology, you can get personalised support and develop new skills to grow your confidence and independence. You can even connect with others, make new friends, access peer support groups and socialise with the community through our Leisure & Lifestyle Services.

Guide Dogs is a registered NDIS provider of specialised Vision Services for infants, children and adults.

Working side-by-side

We put our clients and their families at the heart of everything we do. Every day, we support people of all ages living with low vision or blindness, to achieve outcomes and live independent lives.

We know that no two journeys are the same.

Our therapeutic supports are flexible and personal. The NDIS is designed to be all about you, so no individual plan will be the same. We will work with you to identify your needs and create the most appropriate program of Vision Services to support you to achieve your goals. Our specialised staff will work side-by-side with you and provide advice to ensure your lifestyle and environment is optimised to suit your level of vision. We can also prescribe aids and equipment for use in your home, community and workplace.

We're here to help

And if you're trying to work out which service is right for your level of vision, or simply have some questions, our friendly staff are here to support you.

Every service is flexible and uniquely tailored to you.

No matter your age or level of vision, our team will work side-by-side with you to design a program that will help you achieve your personal goals, both long and short-term. Take the next step, and contact us today.
